Hax$

The complete game list

125,723 games across 656 archive videos
November 29, 2020 – March 6, 2025

Each section is one YouTube upload, games in the order they were played. Times are local to where Hax was playing. "At" is where the game starts in that video; open the video link and seek to it.

Hax played under several tags over the years, so the tag he used is listed beside each game. A few games list "unknown" where the replay did not record who was playing.
